"WHEN HELPING HURTS"

It's easy to feel confused about the best way to help people stuck in a cycle of poverty. Sometimes giving money makes matters worse.

RELIEF IS ABOUT DISCIPLESHIP

More often than not, relationships are a greater resource than money during the hardest of times, but sometimes we need both. The Care Pathway "is not a hand-out, but a hand up." -Rashida.

BENEFITS

PERSON IN NEED

TURNKEY PROCESS

We work as care counselors to meet real needs in your community. We have a detailed process to manage requests efficiently.

CHURCH CONNECTION

We help people connect with the local church. A community of faith is the best resource for anyone experiencing the hardest of times.

DEACON SUPPORT

We advise your deacons or mercy team so they know how to help without hurting the people coming to them for care.

THERE IS A FOSTERCARE CRISIS IN NC.

Over 12,000 kids are waiting to be united with a forever family. It's a big problem but the first step to a solution is to meet a practical need.

YOUR CHURCH CAN SUPPORT FAMILIES

With CarePortal technology we can connect vulnerable families in need with people who can help. Sometimes Responders even open up their home and invite in the stranger to care for kids!

BENEFITS

NATIONAL SUPPORT

Care Portal equips hundreds of people across the nation to meet thousands of needs. The tech makes it easy to serve your community.

TRAINING

CarePortal and the Care Center provide training to get volunteers comfortable with the technology and with serving families.

MONTHLY COACHING

We connect with your church volunteers on a regular basis to make sure things are running smoothly. Cohorts also provide on-going support.
